Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This communication is in response to Applicant's amendment filed on October 22, 2004. The rejections cited are as stated below:

Response to Applicant's amendment

2. Applicants' amendment filed on October 22, 2004 has been fully considered, and discussed in the next section below or within the following rejections are not deemed to be persuasive. Applicants' request for allowance is respectfully denied.

Claim Rejections – 35 U.S.C. 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. The factual inquiries set forth in *Graham v. John Deere Co.*, 148 USPQ 459, that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or unobviousness.

5. Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reed, Jr. et al. US Patent No. 4,083,635 (hereinafter "Reed") in view of Haneda et al US Patent No. 6,801,327 B1, (hereinafter "Haneda").

Claims 1-5 are rejected over Reed as discussed in the previous office action mailed on July 22, 2004. Further:

Reed fails to teach the step of storing each such image in a suitable image format selected from the group consisting of "jpg", "bmp", and "tif" formats, and that each file name being stored in a database which associates each file name with the digital image of each payee.

Haneda teaches a filing system and method for reproducing image data wherein the image data is stored in a database in a suitable image format such as "jpg", "bmp", and "tif" formats, and each file name being stored in a database which associates each file name with the digital image of each user (column 14, lines 12-53, column 16, line 61 thru column 17, line 42, and column 30, line 37 thru column 35, line 27).

It would have been obvious to one of ordinary skilled in the art at the time the Applicant's invention was made to modify the teachings of Reed to include the step of storing each such image in a suitable image format selected from the group consisting of "jpg", "bmp", and "tif" formats, and that each file name being stored in a database which associates each file name with the digital image of each payee because, it greatly

improves the efficiency of the system by printing documents at a higher speed, and managing a database by providing an easier access to images for retrieval.

Response to Arguments

6. Applicant's arguments with respect to claims 1-5 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP '706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
